

GLOBAL PROMO

GTC Token Whitepaper

1. Introduction

Global Promo introduces Global Trade Coin (GTC), a revolutionary crypto project designed to provide a digital and reliable currency for global traders and partners. GTC aims to facilitate seamless, secure, and beneficial transactions worldwide.

2. Problem & Solution

Existing crypto tokens often lack real-world utility for traders. GTC addresses this issue by providing a platform for global transactions, services, and ecosystem growth, increasing the token's value.

3. Blockchain & Technology

Blockchain: Polygon (MATIC) for low network fees, high transaction speed, and smart contract-controlled transactions

- Audited and secure codebase

4. Tokenomics

Token Name: GTC Coin

- Total Supply: 21,000,000 GTC

- Distribution:

- 75% Community Supply (including 5% Free Airdrop)

- 10% Liquidity Pool

- 10% Staking (Rewards, Awards & Salaries)
- 3% Marketing Team
- 2% Centralized Exchange Listing
- Burning Mechanism: 90% GTC burned on withdrawal, 10% returned to ecosystem

5. Roadmap

Q1: Token creation, Whitepaper, and website launch

- Q2: Community building, Airdrop, and Referral Program
- Q3: Utility services launch, partnering with global merchants
- Q4: Exchange listing, market adoption
- Q5: Future plans, including blockchain development and shopping portal launch

6. Conclusion

GTC is a global trade revolution, creating an ecosystem where traders, customers, and investors benefit. With transparency, utility, and community focus, GTC Coin will brighten your digital future.
